Happy New Year Krista. Just thought this might be of interest if you hadn't seen it already. The MPCA sends us a table of all their site-specific standards, including proposed, quarterly, and I highlighted one item below re: Minntac.

Subject: Minnesota's quarterly site-specific standards update - December 2015

Happy New Year!

Here's the 4th quarter update on our site-specific standards work.

- On December 28th we sent you a request to approve the Spring Lake site-specific eutrophication standard.
- On October 30th we received a request from US Steel for multiple sites-specific standards on water bodies in and around the Minntac facility (MN0057207).

Hoping you're having a safe and happy holiday season,
Miranda
